

A GO Center is a college and career information center primarily located in high schools. The center focuses on creating a school-wide college-going culture and promotes college awareness and accessibility. The GO Center serves as the primary point of coordination between the Education-GO-Get-It campaign efforts and local communities. The Go Center at the CTE Center is sponsored by TWU and their Collegiate G-Force mentors.

This next school year the CTE Center and TWU will host 2 late night Go Centers each month for students to stop by for help between the hours of 5:00 and 7:00 PM. The Go Center will be open the 2<sup>nd</sup> and 3<sup>rd</sup> Tuesdays of each month starting in September (see 2<sup>nd</sup> attachment for dates). Appointments are not needed it is a come and go as students and parents need/want. The Go Center at CTE Center is set to work with students in all grades (they have even helped elementary students find scholarships to work on when they showed up with an older sibling at one of our Late Night's @ CTE Center this past year).
