

Integrated Pest Management (IPM) Program

The FISD occasionally applies pesticides as part of an overall integrated pest management program. All persons applying pesticides on district property are required to receive special training & licensure in pesticide application and pest control measures. In addition, this district has a policy that requires use of non-chemical pest control tactics whenever possible.

Information concerning the IPM program or pesticide applications may be obtained by contacting:

Clayton Schiegg – IPM Coordinator / Certified Applicator
